

Coalition for a Safe and Healthy Connecticut

July 2013

Volume 2, Number 3

In This Issue

- Coalition accomplishments
- Plans for the summer
- How you can help!

Help us continue to make Connecticut Safe and Healthy!

[CSHC celebrates our accomplishments and continues to press on!](#)

The Coalition for a Safe and Healthy CT was disappointed that our priority bill did not get called for a vote this session however, we have much to celebrate!!! Look at what we accomplished together!!

- Collaborated with DPH colleagues to develop a bill that would identify chemicals of concern to children and make recommendations to the legislature every two years on ways to reduce exposure—with no fiscal note!!!
- Had widespread support from several champion legislators on the Children's Committee, Public Health and others
- Great media attention on our work including an interview on WNPR, numerous letters in local papers, an op-ed in the Hartford Courant, an editorial board meeting with the Courant and numerous interviews of our team!
- Coach Jim Calhoun came to a press event to support our work!!
- Top notch work from our media team including facebook ads and tv ads.
- Enormous support and advocacy from all Coalition partners across the state---Legislators were hearing from you!!
- A formal municipal resolution by the Hartford City Council endorsing our work and urging state lawmakers to pass our bill!
- Support from small businesses and the American Sustainable Business Council for our bill.
- Tremendous support from new members—Dr. Karim Ahmed, Dr. Sarah Evans, Holistic Moms Network, CT Chapter of Holistic Nurses, Mitchell Environmental Health Associates, First Church of Christ in Mansfield, Theta Epsilon Omega chapter of Alpha Kappa Alpha!

Here's some photos of our work!!

SUMMER PLANS!

We are busy! Coalition members are meeting with legislators in their districts and organizing talks and events across the state to continue to raise awareness on the health impacts of exposure to toxic chemicals in products.

We are also excited about working with colleagues at DEEP on a project to expand the purchasing of products that are non-toxic!

Let us know if you'd like to meet with your legislators in your town or if you'd like us to speak at an event in your area! We'd be glad to help!!

Follow us and get involved!
